EDITOR'S TABLE.

Yesterday we had mails from the the Provinces, mails from Montevideo, and a few old friends back again in the River Plate per Kepler; one of the passengers by this magnificent steamer speaks in the highest terms of the gentlemanly captain and the superb accommodations and treatment on board. The Kepler brought to Rio a cargo of iron plates for the arsenal.

Rumours of every description were current yesterday, but they seemed to be all circulated for speculative purposes. We have received advices from Paraná which state that on the 10th August there will be a new enrolment of the army. Some of the 'lancheros' in the Boca state that the Paraguayans have erected another battery on the River below where the Brazilian squadron is anchored, and that the engineer in charge of the battery is an Englishman: we are unaware what truth there may be in this story.

The Brazilian steamer Apa arrived at the Paraná on the 12th inst. towing a schooner laden with coals for the Brazilian squadron.

We learn that when the Kepler arrived in Rio the greatest rejoicing was going on for the victory of the Riachuelo; the theatres were crowded, and the people wild with excitement. Barroso has been made Baron of the Riachuelo in honor of the victory.

The British Hotel in Calle Piedad is crowded now at mid-day; lunch for $5 has proved a decided hit. Several of our friends have already lunched there, and are so well pleased that they actually invited us to partake of the feast.

On Monday evening there will be a German concert at the rooms in Calle Peru. Tickets can be had at Mackern's.

Colonel Gorordo is likely to be named comander of all the Nat. Guards of the north of the Province.

The Admiral has resolved to despatch H. M. gunboat Spider, as soon as perfectly repaired, up the Uruguay, and another vessel to replace the Dotterel up the Paraná, to watch the course of events. The new crew for the Dotterel was transhipped from the Narcissus for that vessel.

We read that the 'Reforma' is prosecuted for reproducing an article against Gen. Flores from the 'Independiente' of Chile. Drs. Ramirez and Artigas two editors of the Government party were, nevertheless, challenged by the Fiscal when named on the special jury.

On the Queen's birthday Earl Russell gave a diplomatic banquet of which both the Argentine and Paraguayan ministers, Messrs. Balcarce and Candido Barreiro, were guests.

It is never too late to be just, and we have great pleasure in confessing an omission in our account of the American Banquet, respecting the orchestra directed by Professor Daly. The valiant soldier of Pittsburgh Landing enlivened the entertainment with all the National airs of the United States, and some of our matchless Irish Melodies, for which he was much complimented by the American Minister and other guests.

The new Pacific Navigation Company's steamer Limeña, was to leave Liverpool on June 20th, and may be expected in Montevideo to-morrow. She is a magnificent vessel, 2,000 tons burden and 500 horse power.

The passengers per Kepler speak in the most unlimited terms of the splendid accommodation, luxurious table, and perfect attention which they experienced from Capt. O'Carroll.

The steamer Lili arrived yesterday from the Uruguay, towing down the hull of the Villa del Salto. Strange to say, she brought no news whatever from the allied camp.

Our correspondent from Montevideo writes us that the Blanco party there, on receipt of the news of Urquiza's army being disbanded, was wild with excitement. The Colorados regard Urquiza as a man not to be counted on.

Srs. Bustamante and Varela have purchased of Sr. Acha his printing-office in Montevideo, where the 'Tribuna' is at present printed. We have not heard the price.

General Caraballo is in Montevideo, having arrived in post haste from Paysandú with special despatches.

Sr. Mundell, we learn, has been appointed Gefe Politico of Paysandú. Col. Mundell is an Englishman, and we feel confident will make a good Gefe.

MONTEVIDEO.

July 10, 1865.

The requirements of the public service at the present moment sadly interrupt our communication with your city. With those small steamers Rio de la Plata, Tevere, and Uruguay, occupied in the transport service between this and Salto, we can hardly count on a bi-weekly packet to Buenos Ayres. The Uruguay I understand is to pass into the hands of the Brazilian Government with the object of having her fitted up as a man-of-war steamer. To be sure her size and build make her hardly adapted for active war-service, but in the actual pressure of circumstances and the scarcity of steamers in the Brazilian fleet now in the River Plate, she may be turned to good account. I cannot vouch for the truth of my information, but I have been told that the Brazilian Minister offered a sum considerably exceeding one hundred thousand dollars for the Uraguay. If her present owners close with the offer on such terms they may be considered very fortunate, for their bargain will be anything but a bad one.

Captain Flores leaves in the French steamer that sails on the 15th, on his way to Glasgow to superintend the construction of two new steamers for account of a new company. These boats are to be the size of the Rio de la Plata. The shareholders are making a profitable business out of their present limited number of steamers. Those which Señor Flores is commissioned to bring out from Scotland are destined for the Salto and Montevideo route.

Don Pedro Varela has been named Managing Director of the new Montevidean Bank, whose offices for the present are in Calle Cerrito. This gentleman is favorably known in town as a respectable 'almacenero,' though his capacity and adaptability for such a post is a question that can only be solved by practical experience.

The Brazilian steamer 'Gerente' arrived from Rio Grande on the 9th inst. after a wearisome voyage in which she had to put back to Santa Catalina through stress of weather. She met not far from the barra of Rio Grande with the Brazilian steam transport Don Pedro II. This vessel was in distress with about 400 troops on board. It is not mentioned whether she had struck on a rock or how she had received the injuries that led her captain to claim the aid of the Gerente, who took on board the troops and towed the Don Pedro II. into Santa Catalina. The town of Rio Grande has been visited by a hurricane that has caused the destruction of several houses and out-buildings. Trees too have been carried away by the force of the wind, and the Echo do Sul of Rio Grande records the loss and injury of several vessels both large and small on the river.

The Kepler has arrived from England with no later dates than the 20th of May.

The last few days have been quite disastrous for certain coach proprietors. The first of a series of four carriage accidents occurred in the Calle 18 de Julio, when the horses took fright, and dashing up the street ran over a poor man and broke his leg. The second was in the Calle Rincon, when the horses, startled by some mischievous urchins, ran away, but were fortunately stopped in time to prevent a greater disaster. Of the inmates of the carriage Sr. Silveria was slightly injured while leaping out at the carriage door; Mrs. Silveria was taken out in a deep swoon, and attended to at Jeregui's 'botica' where she soon after recovered.

Two accidents have occurred since in the Calle 25 de Mayo. The first was the carriage of the Señora de Montero, which passing rapidly along the street towards the lady's house lost a wheel, and the horses becoming restive, were with difficulty stopped in time to avoid a greater disaster, not however without the lady having suffered severely from the shock of the fall.

The last accident I have to chronicle resulted in very slight injuries to the driver of the carriage, an empty one, the horses of which had also taken fright.

In these times it is well to look to the kind of horses used in the carriage one would hire, as these are now being employed in breaking in half-wild colts, who consequently render travelling 'en voiture' not only an expensive but a rather dangerous practice at présent.

The scarcity of good carriage horses is of course to be attributed to the past war, as of the eighteen 'corps d'armée, equipped by Messrs. Berro and Aguirre, two were more than once mounted on those sleek beasts maintained for private use in the stables in town. I cannot in justice say that the 'situation' has improved much in this respect; there is however this difference, that whereas they used to take horses and men, the Government is now content to take the men alone. It is true, that there are at present very few horses to take.

The question as to the Orientales and Argentines being compelled to serve, whether in your city or in ours, is continually mooted to raise a desperate cry of indignation amongst the parties interested. The matter invested with much interest for certain individuals does not attract general attention, and I believe the Government has ordered the matter to 'lie on the table,' and wait to see if the storm will pass over completely. At present no conclusion has been come to.

THE CORDOVA LAND AUCTION.

LOTS OF LAND, BUT LITTLE MONEY.

NO BIDDERS.

Yesterday the event of the day was Don Mariano Billinghurst's great land auction. Eighty leagues of some of best lands in Cordova, situated not many miles from the Argentine Central Railway line, were offered for sale to the highest bidder. The auction-room was crowded with we may say the leading capitalists of this city, all subscribers to the 'Standard.' We also noticed a good sprinkling of our friends from the camp. At half-past twelve o'clock Mr. Billinghurst opened the maps, plans, and charts, and in his usual clear and emphatic manner stated the terms of sale. The first lot, with a frontage on the river Saladillo, permanent water, and abundance of wood, four leagues in extent, was put up at the modest bid of two hundred Bolivianos per square league; the auctioneer was of course indignant at so low a bid, but as there was no help for it, the first lot was put up at this miserable price, the bidding then became pretty active between an Englishman from the camp and a merchant of this city, but they both exhausted themselves when the price reached 1250 Bolivianos for the square league. Mr. Billinghurst finding no higher bidders then dilated in eloquent terms on the great future of Cordova, the high price of land at Pergamino, which was only a few leagues distant from the lands in question—the shrill whistle of the locomotive, which ere long will echo far and near through the lovely but neglected lands of Cordova—the grandeur of the country, its undulations and rolling pasture lands; but all in vain: there wasn't even a nod from the crowd. Mr. Billinghurst then consulted with the committee, and announced their determination to stop the sale; people then went about their business.

TWO BRAZILIAN STEAMERS LOST.

NARROW ESCAPE OF ANOTHER.

We regret to learn that the naval power of Brazil which covered itself with so much glory in the victory of Riachuelo has recently experienced severe damage from the elements. The Brazilian papers furnish the following:

News was received in Santa Catalina on the 28th June of the wreck of the steamer Pedro II on the 24th at the Barra Vieja, near Itajahy, bound from Rio Janeyro for Santa Catalina with the regiment "Voluntarios de la Patria" and supplies of arms and clothing for the militia of the island. Luckily all lives were saved, but the vessel and supplies were totally lost. The troops were in great destitution at Itajahy without food or shelter. The captain of the port started in his gig to rescue them and met the American steamer Wassuchets (captor of the Florida) at Santa Cruz but she was unable to leave, for want of supplies, having only four tons of coal. The captain of port then returned and found the Gerente in port.

The Gerente it seems had left Santa Catalina on the 24th, and returned dismasted on the 28th. She encountered a heavy gale at 10 p. m. on the 25th, near Tramandahy, and the sea ran so high that her rigging and machinery suffered seriously. After beating about for two days, she steered for Santa Catalina, but being short of coal did not reach port till the 28th. She had on board 150 troops for Montevideo, who promised a votive mass at the nearest port in case they reached land. She is now under repairs and will at once start for Itajahy to save the 300 soldiers cast away on that shore, from the Pedro II.

On the 25th June the news arrived at Rio Janeiro of the total loss of the Brazilian steam-corvette Imperial Marinheiro, the 2nd officer of which had brought the following details. She left Santa Catalina for Rio at 2 p.m. on the 21st. A great storm came on which carried away the boats, but the corvette struck on the Marambaia rocks at 7 p.m. Some sailors leaped ashore and managed to fasten some cables to the rocks, by which means all on board were saved. The vessel was totally lost, but the sailors were supplied with fariña and jerked beef by the authorities. The arsenal despatched a steamer to their rescue.

The above catastrophes reported by the "Despertador" of Santa Catalina shew that there was a terrific gale on the southern coasts of Brazil in the last week of June, and we are surprised not to have heard of it before.

PRACTICAL UTILITY OF THE 'STANDARD.'

ALL THE POLICE AUTHORITIES BEATEN.

Mercedes, July 8th.

To the Editors of the 'Standard,'

Gentlemen,

I have to thank you for the recovery of my horse, bridle, and saddle, which you were so kind as to mention having been stolen from my house on the 18th ult. A countryman resident in Fortin de Areco read the account in your columns and having identified the fellow took my property from him and sent me word to come and claim the same.

This reminds me of a similar occurrence some time ago in which a friend of mine in the Capilla seized a horse and saddle stolen from a friend in the South, who gave notice of same in your paper.

This is only one of the many ways in which the 'Standard' is practically useful to the sheep-farmers, and I am happy to say it is now found in every house throughout the province of B. Ayres.

Returning you my best thanks, and with every wish for your success.

I remain,

Yours gratefully,

MICHAEL ALLEN.

ROSARIO REGATTA.

EXCITING SPORT.

July, 12th, 1865.

This morning a number of English and other foreigners met outside town to witness Cap. O'C. of the H. perform the feat of standing upright on horseback, barebacked, and galloping at full speed. He succeeded in doing so to our astonishment, and after that we had a fast race of 35 yards on foot, Mr. B. proving the victor. In the evening Captain D., of a certain well-known little river boat, succeeded in steering Mr. W. A. B., in a fifty-five yard race; his adversary, Captain O'C. receiving seventy-five. Captain D., mounted upon the back of your old schoolfellow, coming in victor. A considerable amount of money changed hands. In the afternoon all hands adjourned to the Hotel del Paix, and did ample justice to the fare provided by the vanquished.

Ever yours,

PADDY O'BRIEN.

Rosario, 11th July.

A considerable sensation was created amongst a portion of the English community here, in consequence of a challenge being accepted by an Irish Gentleman on a visit to this town, to pull a sculling race against an English resident remarkable for his aquatic pursuits. The affair derived the more *éclat* from the fact that the gentleman were to be piloted, by two well known. Caps. O. C. and D. The latter gentleman steered Mr. O. C. and the former Mr. B. The race came off this morning: the gentlemen attended by a party of friends met on the mole and after a few preliminaries got into their respective boats. About a mile up river they had to turn an English ship and home. Mr. O. C. took the lead and kept it for a quarter of a mile when Mr. B. closed him and both gentlemen pulled a splendid race to the flag-ship. The betting was even. Unfortunately a foul occurred whilst passing through some shipping, but for the able management of the coxswains the gentlemen's sculls, if not their boats, were in danger. As it it was Mr. B's boat lost her rudder, but the gallant captain who steered her was far too energetic a man to be taken aback by such a trifle; he managed by some means to provide himself with a paddle, thereby rendering the most effectual assistance to his man, just when he wanted it, enabling him to come a little in advance of his opponent.

The race was well fought throughout and with great pluck, the steersmen showing their thorough knowledge of the river eddies, especially the captain of the H., who performed wonders with his 'carralate.' Of course there were objections, as in all cases of a 'foul,' and of the very doubtful use made of the paddles. However, the gentlemen will not appeal to 'Bell's Life,' but have determined to double the stakes, and decide the matter by swimming over the course.

Very poor display here on the 9th, one man beating a drum about the streets in a greasy kind of fog. Many rumours circulating since the Espigader passed down in such a hurry on Sunday.

The Municipality are trying to make something of the streets. A splendid place this for promenading; a very little of it goes a great way.

The camps in splendid order, and good increase in all the flocks.

REJOICINGS AT ARRECIFES.

To the Editors of the 'Standard.'

Arrecifes, July 6.

Gentlemen,

I must trespass on your kindness and hope you will not think this note an intrusion on your time, being my first, and I hope you will comply with my wishes. I suppose you are aware of the change in the office of 'Juez de Paz' in the Partido of San Pedro, the putting out of Sr. Zarnaldo, and putting in of Sr. Eugenio Obligado. I must say, in unison with my fellow-countrymen here, he is "the right man in the right place." The foreigners gave him a grand 'blow-out' on the nights of the 23d, 24th, and 25th of the last month. I believe the like was not seen in this partido before. The little town of San Pedro was in one continual blaze from fireworks; 'carne con cuero' to no end. The suppers were held at your worthy agent's, Sr. Pagardoy, my father-in law: they were given in magnificent style. The honors of the table were done by Capt. Price, seconded by Señora Pagardoy.

The company contained some of our leading sheepfarmers, which is a sign of the times changing for the better. I am glad to inform you the nights passed in harmony and merriment. I mention a few in particular who enlivened the company by their clever singing: The Messrs. Harvey, also Mr. John Wall, who kept the company in roars of laughter by some comic songs. Mr. John Cleary gave some clever songs, 'The last rose of summer,' and 'Still so gently o'er me stealing,' not speaking of the Italian and French songs, which were appreciated but not understood. Toasts and sentiments were numerous. The last toast of the evening was given by Mr. M'Donnell, which was, 'Long life to the most useful paper in Buenos Ayres, and health and happiness to the proprietors, Messrs. Mulhall.' Mr. John Breagh gave a lecture, giving it a touch of the comic and sentimental.

Yours,

ARRECIFES.

THE GERMAN CONCERT.

To the Editors of the 'Standard.'

Buenos Ayres, July 13.

Gentlemen,

Having had the pleasure of making the trip from Montevideo last night, in company with Herr Schramm, I rejoice to be in a position to retract, or rather to correct, my remarks upon that gentleman's performance on Thursday last. The whole fault, as it appears, lay in the condition of the piano, which being French, and of not particularly good construction, has suffered considerably by the weather causing the keys to warp, so that when once struck many remained down, thus rendering it totally impossible to play with any approach to either effect or accuracy.

Begging that you will insert these few lines, and hoping at the same time that Mr. Schramm will pardon the harshness of my recent remarks,

I remain,

Yours truly,

FRONT-DE-BOEUFF.

THE PARAGUAYANS IN UPPER BRAZIL.

INVASIONS IN MINAS GERAES, GOYAZ AND MATTO GROSSO.

MINAS GERAES.

The expedition left Formiga on the 1st June. It then consisted of 266 troops of the Line, 604 Volunteers and 205 of the Policial Corps, in all, with the officers, 1089. 21 Volunteers and 7 regulars had deserted; and 24 regulars, 17 Volunteers and 29 Police had been left on the road sick.

Official reports say the Paraguayans were on the Cumapuan, on the Miranda road, 250 miles from Santa Anna, and had taken Coxin.

GOYAZ.

The contingent of the province was to have marched for Cuyabá on the 18th of April but from want of arms, equipments and horses could no set out.

Santa Anna do Paranahyba is almost deserted by its inhabitants owing to the fear that the Paraguayans will make a raid in that direction.

Reports by way of Minas Geraes say that Santa Anna was taken by the Paraguayans.

On the 19th of April 29 volunteers raised in the neighborhood of Catalão started for Goyaz. A local society to raise funds for aid to the volunteers and national guards has been established.

MATTO GROSSO.

No further movements of the Paraguayans as far as known, except the reported occupation of Coxim. The post of Melgaço [below Cuyabá] remained undisturbed. Colonel Oliveira the ex-Commandant at Corumbá, was suspended by the President from the offices of Commandant or Arms and Inspector of the Arsenal of war on the grounds of his having unnecessarily abandoned the fort before the approach of the enemy, and permitted his command to be scattered amongst the swamps. Colonel Carlos de Moraes Camisão was appointed Commandant of Arms.

The garrison of Coimbra, which was left behind by Col. Oliveira when retiring from Corumbá, and which under the command of Lieut. Mello took refuge, together with a number of the inhabitants of the country about Corumbá, in the swamps of the S. Lourenço, turns out not to have been captured as previously reported, and supplies and boats have been sent from Cuyabá to bring them away.

They were reported, however, to have already reached Coxim on their road to Cuyabá.

The Paraguayans were said to hold the town of Miranda. The inhabitants had deserted it some days previous to their arrival and had taken to the woods.

General Leverger was superseded, at his own request, by Lieut. Col. Comisão in the command at Melgaço.

As soon as the inundations of the banks of the Cuyabá and S. Lorenzo cease it is purposed to occupy the port

of Cassango as an advanced post against the Paraguayan disembarkations. This place is below the narrow channels of Acorotuba and Pirahy.

The Paraguayan steamers patroled the S. Lorenzo, and they had armed boats with 15 or 20 men each constantly traversing the swamps and inundated country. These inundations served as protection to Cuyaba, as their steamers draw too much water to ascend, but when the Paraguayans could land it was feared they would attack Cuyaba.

Anglo-Brazilian Times.

THE NARCISSUS.

We were on the brink of having to lament a most serious fire on board H.M.S. Narcissus, a few days back, the consequences of which might have been as deplorable in their extent as the burning of the ill-fated Bombay. I am told the fire was discovered almost as soon as it commenced, in the spirit-room, and that its origin was in a cask of turpentine igniting, how it is not exactly known. The alacrity displayed by the hands on board in quenching the rising flames, was repaid by the vessel being placed in a very short time out of all danger. The coincidence of the Narcissus being the successor to the Bombay, so lately destroyed by fire, is not a little curious, and Captain Campbell, who commands the Narcissus, must have had sad reminiscences of that melancholy event brought vividly to his mind by the simple menace of a like disaster on board his present ship.

Montevidean Correspondent.

AN ADVENTURE AT BUENOS AYRES.

I was returning from a ball with a friend at an early hour in the morning when I heard a report of firearms close to me in a house. I endeavoured to break in the door, but could not. Looking through the window I saw a man, pistol in hand, who had just fired a second barrel; at the same moment a man, bleeding came out from another door crying for assistance. I rushed in with several policemen after me and wrenched the pistol from the first and seized him. Other police at the same time had broken in at another door (it was a corner house), and seeing me standing there pistol in hand, holding one man, with another apparently lying dead before me, mistook me for the murderer, and immediately cut me down with two severe cuts from clubbed lances on the head. I fell covered with blood. On getting up again, I was lanced in several places, and beaten black and blue. How I escaped with my life I know not. I was dragged out, more dead than alive, and thrown into prison as the supposed murderer, and remained there for about ten hours. This is my first day out of bed. Thanks to God, the wounds are nearly healed, and I feel no ill effects from them. I feared that my skull was fractured, but I now conclude that it is all right. I have been on shore since, living at a hotel, whence the doctors will not let me move for some days. Everybody has been most kind, and it has been taken up by our Minister here. I never knew what a thrashing was before. I offered no resistance, having not even a stick to guard off a blow with. The pistol, I suppose, was knocked out of my hand by the first blow, which was given me from behind, and on turning round to see who had struck me I received one across the forehead, which felled me. I was covered with blood from head to foot, but did not lose my senses. One of the wounded men is dying, the other badly wounded. I shall carry a two-inch scar on the forehead, just above the right eye. What will be the end of it between our Minister and this Government I cannot yet say; perhaps an apology,—not that that will do me much good.

Times, 23 May.

THE 'TIMES' ON RIESTRA'S MISSION.

It is stated that Señor de la Riestra, the President of the Senate at Buenos Ayres, and formerly Finance Minister, will arrive by the next English River Plate steamer, and that the amount of the loan proposed to be negotiated is supposed to be about 1,500,000£. The Government have properly entertained great disinclination to raise a foreign loan, and, content with the steady progress of the national finances, have hitherto been enabled to resist all suggestions to that effect, either for currency or other purposes. At the same time, they have relied that the scrupulous neutrality they have observed in the conflict between Brazil and Paraguay would have obviated all necessity for making preparations for any undue expenditure. The sudden and treacherous attack made upon them by Paraguay has, however, left them no choice but to join with Brazil and Uruguay in prompt measures. The final result, it is believed, will be very favourable for all interests in the River Plate since it is expected by the overthrow of Lopez to open Paraguay to the influences of civilization, and thus bring the whole region into harmony.

SHIPPING INTELLIGENCE.

EXTRAORDINARY PASSAGE.

The British ship Don Diego, which sailed from Buenos Ayres on 5th April last, when ten days out in lat. 28.40 S., long. 32.30 W., was struck by a heavy squall and lost main and mizen masts, also sprung foremast. The captain writes when she lost her masts she was going 11½ knots; he however rigged up jury-masts, and notwithstanding the damage done arrived in New York on 25th May, making the passage in 50 days, beating all vessels that sailed about same time, with the exception of one, the W. M. Dodge. Captain Taylor deserves the greatest credit for not going into any port to repair. This fast clipper is owned by Messrs. Darbyshire, M'Harnett & Co. Liverpool.

LONDON, MONEY MARKET.

June, 8th 1865.

Continued ease is the only noticeable feature in the Money Market since the reduction of the rate by the Bank last week to 3½ per cent., and, with the great falling off in commercial transactions, no particular demand for money is likely to arise at present. Specie keeps arriving, and the Bank returns to be published this evening are likely to be of the most favourable character. Under such circumstances a rally might be looked for in the Produce Markets were it not for the heavy stocks still held, and the latent fear of political disturbances with the United States, whose demands on our Government for losses inflicted by Confederate cruisers are supposed to be of a somewhat peremptory character. The fact seems to be lost sight of in this controversy that the interest in these captures was an insurable one, and in all probability our own underwriters have been the greatest sufferers. But for this and other political circumstances the value of our public securities might be expected to undergo a considerable rise, consols being now about the same price as when the Bank rate was 9 per cent. The only foreign loan spoken of at present is that for the Argentine Confederation, which Sr. Riestra is now on his way here to negotiate, and we anticipate a favourable response on the part of the monied interest. Brazilian and South American securities maintain their value. Consols close to-day at 90⅛ to 90¼ for Money, and 90⅜ to 90½ for Account (July 6).

170 Shares cash at 10 per cent. discount.

Nothing of any importance done on 'Change to-day beyond the sale of 70,000 pats. on account of the Government. Patacons opened firm, but the moment Sr. Fernandez appeared in the hall with the Government specie the market gave way, and had he orders to have sold more, still further would have been the decline, but it is only temporary. In the liquidation room specie again stiffened. The news by the Ibicuy increased public confidence. Governor Orollo has offered the National Government 3000 men over and above the Provincial contingent, and it is surmised that other Governors will follow his example; still people are most anxious to hear from Concordia, as some letters received from the Banda Oriental respecting the Paraguayans have caused uneasiness amongst moneyed men. The Cordova land auction was discussed; the general opinion is that these lands cannot under the present state of things fetch over 700 pats. per league. The Banco Mana statement for the month was also much talked of, and the conduct of the Baron in having at the present moment two millions five hundred thousand patacons in his vaults, greatly praised. Discounters are very shy, and much second and third class paper offering at two per cent per month. Bonds look firm, but large sales at present prices are difficult to effect.

The sale of the Mersey was also talked about. A leading broker informs us that it will be difficult to sell her at the price which is asked, but that at £25,000 perhaps a purchaser might be found.

Produce is dull, notwithstanding that shipbrokers are busy looking for cargo for the vessels on the berth. Money is dear, and exporters are nervous. Outside in the camp dry hides are accumulating, and in spring we may expect large arrivals.

The Tevere leaves to-morrow (Saturday) for Montevideo. It was said on 'Change this evening that she is about to be either chartered or bought by the Brazilian Government, as also the Rio de la Plata.

Some few ounces arrived to-day in the Tevere for a native merchant, and several hundred are to be sent up the Parana. Sr. Varela has been named the manager of the new Montevidean Bank. The notes of this bank have been ordered from the United States.

Sr. Lezama's steamer from Esquina, the Victoria, did not arrive to-day. She is hourly expected, being over-due.

Condition on the 31st May, 1865.

Capital subscribed during the first ten months of existence, 1,100,000 hard dollars.

Number of Policies, 820.

Bonds purchased, 88,000 hard dollars.

The Bienhechora offers three various modes of Insurance to its subscribers: 1st, with the loss of capital by the death of the Insured party; 2nd, without loss of capital in said event; 3rd, with mere compound interest.

In the first form the Insured party has a right to:

1 To compound interest on the bonds purchased by the capitals received by the Company.
2. To a propertionate share of the capitals and interest of those who die in their respective sections.
3. To a proportionate share of the Capitals and Interests of forfeited subscriptions.
4. To a proportion of gains resulting from increased value of the National Bonds acquired by the inversion of funds.

In the second form the Insured claims

1. Compound Interest on the National Bonds purchased by the Association,
2. A proportionate share of the Interest due on the Capitals of those who die in the respective sections, which capitals are returned to the subscribers
3. A proportion of the interest due on forfeited shares.
4. A proportionate share of the profits arising from the increased value of the National Bonds, acquired by inversion of funds.

Finally, in the third form, gives a right to the corresponding interest produced by the Bonds purchased with their subscriptions, and the successive reinvestment of such interest, effected quarterly, when the coupons are paid up by the public treasury.

So marvellous are the benefits arising from the employment of Capitals in Public Funds, assisted by the combinations effected by "La Bienhechora," based upon the Mortality Tables of Deparcieux, and the interest produced by the 6 per cent. Consolidated Bonds, that taking for a modal, the result given by other companies established precisely in the same form and basis, but with an accumulative interest much inferior to that gained by the "Bienhechora," that it is enabled to present as positive the following tables showing the gradual progression of capitals for a subscription of:

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.

P.p. Mauá and Co.
WILLIAM LESLIE

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank
